Karishma Rawal

Data Analyst

rawalkarishma062@gmail.com +918302661704 LinkedIn https://github.com/KarishmaRawalTech

PROFILE

Results-driven **Data Analyst** with strong expertise in **SQL, Python, Power BI, Tableau, and Advanced Excel**. Skilled in **data analysis, data cleaning, transformation, data modeling, EDA, KPI development, dashboarding, and business intelligence**. Proven ability to translate complex data and business requirements into **actionable insights**, optimize reporting and analytical processes, and deliver data-driven solutions that support business decisions and performance improvement

PROFESSIONAL EXPERIENCE

Data Analyst 10/2025 – Present | Bangalore
ICICI Lombard
- Analyzed lead, renewal, and conversion data to identify performance trends, gaps, and improvement opportunities.
- Tracked KPIs including lead coverage, customer contacts, renewals, and conversion across teams and regions.
- Prepared daily, weekly, and monthly performance reports and dashboards to support management decision-making.
- Collaborated with business and operations teams to validate data, translate requirements into analytics, and recommend actions to improve conversions and renewals.

Data Analyst 02/2025 – 09/2025 | Mumbai
Pmaxtek
- Executed end-to-end data science projects, including **Customer Churn Prediction**, using Python, Pandas, NumPy, and machine learning to identify at-risk customers and support retention strategies.
- Performed **data collection, cleaning, preprocessing, EDA, and statistical analysis**, while developing and evaluating machine learning models to generate predictive insights.
- Built **data visualizations, dashboards, and analytical reports** and collaborated with cross-functional teams to translate business requirements into data-driven solutions and support decision-making.

Data Analyst 06/2024 – 01/2025 | Mumbai
Imarticus Learning
- Analyzed 40K+ trending YouTube videos (Nov 2017–Mar 2018) to identify factors influencing virality.
- Performed exploratory data analysis (EDA) on engagement metrics (views, likes, dislikes, comments).
- Leveraged Python libraries (Pandas, NumPy, Matplotlib, Seaborn, Plotly) to create diverse visualizations and uncover patterns.
- Derived actionable insights on video categories, publishing trends, and audience engagement.

EDUCATION

Bachelore of Computer Application(BCA) ,MLSU 2021 – 2024 | Rajasthan

Certified Data Scientist Professional,(Imarticus Learning) 01/2025 – 07/2025 | Mumbai

SKILLS

- **Data Analysis:** Data Cleaning, Transformation, EDA, Validation, KPI & Trend Analysis
- **SQL:** Complex Queries, Joins, CTEs, Subqueries, Window Functions
- **Power BI:** Dashboards, DAX, Power Query, Data Modeling, KPI Reporting
- **Python:** Pandas, NumPy, Data Analysis, EDA, Visualization
- **Excel:** Advanced Excel, Pivot Tables, XLOOKUP, Power Query, Reporting
- **Data Modeling:** Star Schema, Fact & Dimension Tables, Relationships
- **Visualization:** Power BI, Tableau, Interactive Dashboards, Data Storytelling
- **Governance & Business:** Data Quality, Accuracy, Stakeholder Management, Cross-functional Collaboration, Process Optimization

PROJECTS

Project Name: CRM Analytics & Business Performance Dashboard **Tools: Power BI | SQL | Python | Advanced Excel | CRM**
- Analyzed **CRM customer, lead, renewal, and conversion data** to identify trends, performance gaps, and opportunities, contributing to an increase in **customer retention from 7% to 25%** through data-driven strategies.
- Built **interactive Power BI dashboards and reports** to track KPIs including productivity, contact rate, conversion, renewals, retention, and team performance.
- Performed **data cleaning, validation, transformation, and reconciliation** to ensure accurate reporting and actionable business insights.
- **Handled and supported a large business team** by leveraging data analysis and performance insights to optimize processes, improve conversions, and drive data-driven decision-making.

Project Name: Multi-Dataset SQL Analysis (Cereals, Clinical,Insurance, Movie,Organization, Titanic)
Key Skills: MSSQL,MySQL, Joins, Aggregations, Views, Stored Procedures,Indexing, Query Optimization
- Optimized SQL queries using joins, aggregations, indexing for fast extraction from 500K+ records
- Built 10+ stored procedures and 8+ SQL views for dynamic reporting on key metrics
- Calculated 20+ metrics including sales totals, averages,risk scores, survival rates

CERTIFICATES

- Databricks Accredited Generative AI Fundamentals
- Microsoft: Introduction to Career Skills in Data Analytics
- Analytics Vidhya: Machine Learning
- Accenture: Data Analytics and Visualization
- Goldman Sachs: Microsoft Excel
- PwC: Power BI
- Hacker Rank: SQL
